

Actuarial Intern - 4 month Co-op/Internship (Summer or Fall 2023)

It's more than a great career. It's a bright future.

Are you a student or new graduate looking to gain invaluable industry experience and fast-track an exciting career?

We have a great opportunity as an Actuarial Analyst Intern for our team of Actuaries. Each year we welcome more than 300 interns across the country! Our internship and co-op placements offer meaningful work experience and valuable on-the-job training and coaching. Not only will you get solid experience in exciting fields like Software Engineering, Data Science, Actuarial, and Marketing, but you'll contribute to the team's vision and meet great people along the way.

About the role

We are looking for future talent who would like to grow with us. If you think the **Actuarial Analyst** internship is for you and you're interested in becoming part of the Intact family, then please read the following and send us your application today!

Work terms: Summer or Fall 2023

Job Location:

Montréal (2020 boul. Robert-Bourassa)

St-Hyacinthe (2450 Girouard Ouest)

Québec (5700 boul. des Galeries)

What you'll do here:

- Support the company's strategy by tracking the profitability and competitiveness of our insurance portfolios and helping to prepare an action plan for the coming years.
- Use actuarial techniques to ensure that the Company has adequate loss reserves and reinsurance as well as a sufficient amount of capital to respond to various catastrophe scenarios.
- Contribute to the company's innovation initiatives in machine learning, customer experience, usage-based insurance and climate change.
- Support other departments like Underwriting, Marketing, Risk Management and Finance.

Qualifications

What you bring to the table:

- Have an excellent ability to adapt to change
- Can work in teams
- Can work independently and have a sense of responsibility
- Have a strong oral and written communication skills
- Have the ability to analyze and synthesize

These are the requirements to apply:

- Studying toward an undergraduate degree in Actuarial Sciences
- Interest in computer science, technology and innovation (an asset)
- **Bilingualism (French and English) is required**

Here are a few reasons why others have joined our team:

- Visualize a career in insurance as you discover more about our exciting, evolving industry
- Build relationships and networks to support your professional growth and success
- Expand your skills through collaboration with and training from our experts
- Collaborate with colleagues on developmental projects and share your knowledge

Flexible Work Arrangements

We're proud to support a flexible hybrid approach which gives everyone the best of both worlds. While there are no minimum or maximum time requirements, each team's need for in-person connections will be different and there will be times you'll join your colleagues at the office.
